

# Training catalog

Discover N-SIDE Suite  
training solutions.

## THE N-SIDE SUITE TRAINING CATALOG

This comprehensive training catalog has been designed to provide you with a clear overview of the N-SIDE Suite training options. The users can follow three different training paths. Each of those contain the sessions that are required to become either a Visual user, an Advanced user, or a Power user. For each of the paths, the trainings are numbered and organized by module, in order to ensure a better understanding and usage of the N-SIDE Suite.

Each track contains the sessions relevant for either a Visual user, an Advanced user or a Power user.

- The **Visual user track** is perfect for users who want to visualize and intuitively interact with their clinical data through the N-SIDE dashboards, leading to efficient and proactive study monitoring and reporting;
- The **Advanced user track** is made for users that go one step further by running simulations within the N-SIDE Supply App. They are able to change some setups as the recruitment assumptions, the production plan, or the depot shipments and they can create what-if scenarios during ongoing trials. Simply put, the Advanced users focus on quick assumptions/inputs updates and straightforward simulation results;
- The **Power user track** is to become a true master of the N-SIDE Suite. A Power user can support operational and strategic decisions by modeling and monitoring clinical data with full access to the N-SIDE Suite. After having followed the training sessions, the Power user will be able to setup new trials and optimize advanced trials and study characteristics.

In this catalog, each training is represented by a training ID card giving all its related information, including the duration, the pre-requisites, table of contents, and learning objectives. Our team of experts will be more than pleased to support you in this successful user journey.

### THE TRAINING PACKAGES ARE ORGANIZED WITHIN SIX DIFFERENT MODULES

- Getting started
- N-SIDE dashboards
- Simulations & optimization
- Create a new trial
- Collaboration & N-SIDE support
- To go further (optional)

# Table of contents

	Visual user	Advanced user	Power user		Page
<b>A. Getting started</b>					
A.1 Introduction to the N-SIDE Supply App	✓	✓	✓	1h-2h	5
A.2 Navigation in the N-SIDE Supply App	✓	✓	✓	1h-2h	5
A.3 User journeys	✓	✓	✓	20m-1h	6
<b>B. N-SIDE dashboards</b>					
B.1 Introduction to the N-SIDE dashboards	✓	✓	✓	1h	8
B.2 Dashboard usage & storytelling	✓	✓	✓	45m	8
B.3 Results dashboard	✓	✓	✓	2h	9
B.4 Comparison dashboard	✓	✓	✓	1h	9
B.5 Monitoring dashboard	✓	✓	✓	2h	10
B.6 Strategic dashboard	✓	✓	✓	1h-1h30	10
<b>C. Simulations &amp; optimization</b>					
C.1 Plans & simulations	✗	✓	✓	2h	12
C.2 Update a trial & run scenarios	✗	✓	✓	4h	12
C.3 Leverage your IRT data & reevaluate your clinical assumptions	✗	✓	✓	3h	13
C.4 Mathematical concepts behind the Supply App	✗	✓	✓	2h	13
C.5 Depot shipments management	✓	✓	✓	3h	14
C.6 Results & plan review	✗	✓	✓	2h	14
C.7 Wrap-up exercise for Advanced users: ongoing trial	✗	✓	✓	4-8h	15
<b>D. Create a new trial</b>					
D.1 Create a trial on the N-SIDE Supply App	✗	✗	✓	8h	17
D.2 Site resupply optimization	✗	✗	✓	4h	17
D.3 IRT extracts and matching	✗	✗	✓	30m	18
D.4 Risk management workshop	✗	✗	✓	4h	18
D.5 Wrap-up exercise for Power users: before FPI & ongoing trial	✗	✗	✓	8-16h	19
<b>E. Collaboration &amp; N-SIDE support</b>					
E.1 N-SIDE service desk & support	✓	✓	✓	15m	21
E.2 Sharing management	✓	✓	✓	1h	21
E.3 Wrap-up, co-development and next steps	✓	✓	✓	1h	22
<b>F. To go further (optional)</b>					
F.1 Interactive Response Technology (IRT) training	✗	✓	✓	5h	24
F.2 IRT Game	✗	✓	✓	2h30	24
F.3 IRT How to manage shelf life extensions in the Supply App	✗	✓	✓	4h	25
F.4 Overage workshop	✗	✓	✓	4h-8h	25
F.5 Risk workshop	✓	✓	✓	4h-8h	26

**A.**

# Getting started

## A.1 Introduction to the N-SIDE Supply app

**Duration**  
1h - 2h

**Prerequisites**  
None

**User track**  
Visual, Advanced, Power

### Learning Objectives

- Identify the **key challenges in clinical trial supply** and how to address these challenges through the added-value of simulations.
- Embrace the **power of optimization** by getting to know multiple case studies across the trial lifecycle.

### Table of Contents

- Challenges of clinical trial supply
- Using optimization at trial design
- Using optimization at trial supply setup
- Using optimization for an on-going trial
- Take home messages

## A.2 Navigation in the N-SIDE Supply App

**Duration**  
1h - 2h

**Prerequisites**  
None

**User track**  
Visual, Advanced, Power

### Learning Objectives

- Understand the **structure** of the Supply App.
- How to **navigate** through the Supply App.
- Go through the **simulation process**.

### Table of Contents

- Beyond optimization: a user journey
- Supply App structure
  - Master data
  - Trial level structure
- Simulations process
- *Let's take a look at the tool!*

## A.3 User Journeys

**Duration**  
20min - 1h

**Prerequisites**  
A.2

**User track**  
Visual, Advanced, Power

### Learning Objectives

- Whether a Visual, Advanced or Power user, experience the **step-by-step** journey of the Supply App.
- Understand the power of the role in managing clinical trial supplies.

### Table of Contents

- **Visual user journey:**
  - Role of the Visual user
- **Advanced user journey:**
  - Role of the Advanced user
  - Monitoring trials
  - Updating setups and creating scenarios
- **Power user journey:**
  - Role of the Power user
  - Before first patient in
  - During an ongoing trial
  - Collaboration with the Advanced user
